

MANISH KASHYAP

Vadodara, Gujarat | Software Developer

+91 7046894649 mk2151431@gmail.com [LinkedIn](#) [GitHub](#) [LeetCode](#) [Portfolio](#)

Professional Summary

Computer Science undergraduate with hands-on experience in Java backend development, Spring Boot, REST APIs, and React-based frontend development. Built scalable web and AI-powered applications with strong knowledge of data structures, databases, and software engineering principles. Passionate about backend systems, machine learning, and full-stack application development.

Technical Skills

Languages: Java, Python, SQL
Backend : Spring Boot, Spring Framework, REST APIs, Hibernate, Spring Data JPA
Frontend : React, HTML, CSS
Databases: MySQL, MongoDB
Tools : Git, GitHub, Postman, VS Code
Core CS : Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
AI/ML : Machine Learning, Deep Learning, OpenCV

Projects

Turing Body (Capstone Project) [\[Project Link\]](#) [\[GitHub Link\]](#) **Jan 2026 – Present**

- Developed an AI-powered MRI analysis system for Multiple Sclerosis lesion detection using U-Net CNN architecture.
- Trained the model on 1,451 MRI scan images and lesion masks with 80/20 train-validation split.
- Achieved approximately 99.6% validation accuracy during lesion segmentation model evaluation.
- Built image preprocessing pipelines including MRI slice extraction, normalization, resizing, and data augmentation.
- Developed Spring Boot REST APIs for prediction handling and backend integration workflows.
- Integrated React frontend with backend services for real-time MRI prediction interaction.
- Used MongoDB Atlas to store prediction records, scan metadata, and diagnostic results.
- Implemented model training using TensorFlow with Dice Loss, Adam optimizer, and early stopping techniques.
- **Tech Stack:** Spring Boot, React, MongoDB Atlas, TensorFlow, OpenCV, REST APIs

Industry Project Experience

Project-Based Learning Program [\[Certificate Link\]](#) **Aug 2025 – Oct 2025**
byteXL TechEd Pvt. Ltd. — Guided Industry Training Program

- Worked in a team-based SDLC environment under the guidance of industry mentors from byteXL.
- Contributed to the backend development of the GrowMart grocery marketplace application using Spring Boot.
- Designed and integrated database structures for product and user management functionalities.
- Collaborated with team members during weekly sprint evaluations and technical review meetings.
- Gained hands-on exposure to real-world software development workflows, project architecture, and Agile collaboration.
- Participated in project presentations and feature discussions during evaluation sessions.

Education

Bachelor of Technology (CSE – AI & ML) – CGPA : 8.6/10 **2023 – 2027**
Parul University, Vadodara

Relevant Coursework : Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering
Technical Exposure : Spring Boot Development, Enterprise Application Devlop, AWS Cloud Fundamentals, Microsoft Azure
Workshops & Training: Web Development Workshop, Computer Vision using OpenCV, Prompt Engineering, AI Agent Modeling

Certifications & Achievements

- **AI/ML Sprint – Project-Based Learning** — byteXL TechEd **Oct 2025**
- **Computer Networks and Internet Protocol – NPTEL (Elite, Top 5%)** **Apr 2025**
- **Microsoft Certified: Azure Data Fundamentals (DP-900)** **Apr 2024**
- Solved 250+ DSA problems across coding platforms.
- Built multiple backend and AI-powered academic projects.
- Strong interest in backend engineering, scalable APIs, and AI-powered systems.
