

MANISH KASHYAP

Vadodara, Gujarat | Software Developer | Java & Spring Boot | Full Stack | Machine Learning

+91 7046894649 · mk2151431@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

Summary

Final-year B.Tech (CSE – AI & ML) student with 2 production-ready full-stack platforms using Java, Spring Boot, Python, and REST APIs, including a deep learning medical imaging system at 91% accuracy. Proficient in CNNs, TensorFlow, OpenCV, and AI API integration (Groq, Gemini). Passionate about building scalable, intelligent, and impactful software solutions through AI.

Technical Skills

Languages & Backend	Java, Python, SQL, Spring Boot, Spring Security, JWT, REST API
ML / Deep Learning	TensorFlow, CNNs (U-Net), Computer Vision (OpenCV), Data Analysis (NumPy, Pandas)
AI Tools & APIs	Claude, ChatGPT, GitHub Copilot, Gemini API, Groq API, Whisper, Prompt Engineering
Frontend & UI/UX	HTML, CSS
Databases	MySQL, Oracle, MongoDB Atlas
Cloud & DevOps	AWS (EC2, S3, IAM), Git, GitHub Actions, CI/CD, Vercel, Postman, Render, Firebase
Core CS	Data Structures & Algorithms, OOP, Design Patterns, Agile/SDLC, Software Testing

Projects

Turing Body – AI-Powered MS Lesion Detection System

Jan 2026 – Present

[\[Live\]](#) [\[GitHub\]](#)

- Built a **U-Net CNN** (TensorFlow) MRI lesion segmentation pipeline with TTA and morphological post-processing, achieving **91% test accuracy** (Dice 0.71); predictions served in **1200ms** via Spring Boot REST API with JWT authentication.
- Developed Next.js dashboard with severity classification (Mild/Moderate/Severe), segmentation overlays, automated **PDF report generation**; containerized with **Docker**, deployed on Vercel with zero-downtime releases.
- Led Git branching strategy and reviewed 15+ PRs across a 3-person team over 4 Agile sprints.
- Tech-Stack: Java, Spring Boot, Next.js, React, MongoDB Atlas, TensorFlow, Python, MySQL, Docker, Vercel

Examiner – AI-Powered Mock Interview Platform

Mar 2026 – Present

[\[Live\]](#) [\[GitHub\]](#)

- Built a full-stack platform generating personalized interview questions from **resume PDF uploads** or subject selection (Java, React, DSA, DBMS) via **Groq LLM API** with adaptive difficulty (Easy/Moderate/Hard).
- Designed 3D interviewer avatars (Three.js, React Three Fiber, VRM) with **Text-to-Speech** lip-sync and **Whisper speech-to-text**, supporting both voice and text input modes.
- Automated evaluation scoring **technical knowledge, communication, and confidence** with personalized improvement reports.
TechStack: React.js, Vite, Tailwind CSS, Three.js, FastAPI, Groq API, Whisper, Python, VRM

Work Experience

Industry Guided Software Development (Project-Based)

Aug 2025 – Oct 2025

byteXL TechEd Pvt. Ltd., Remote

[\[Certificate\]](#)

- Contributed to **Growmart** (AI/ML sprint) – an online grocery marketplace prototype; designed UI components, analyzed requirements, and planned system architecture in a 3-member Agile team across 2 sprint cycles.
- Built **5+ Spring Boot REST API endpoints**, reducing average query response time by **30%** via SQL optimization; authored tests covering **80%+** of critical paths with zero post-deployment defects.
- Leveraged ChatGPT and GitHub Copilot for boilerplate and scaffolding; manually audited all AI-generated suggestions, correcting 3 of 10 outputs before committing.

Education

Bachelor of Technology – Computer Science Engineering (AI & ML)

Aug 2023 – May 2027

Parul University, Vadodara, Gujarat

CGPA: 8.6 / 10.0

Certifications

Microsoft Certified: Azure Data Fundamentals (DP-900) — Global Level Certifications

Apr 2024

Computer Networks and Internet Protocol – NPTEL — Elite + Top 5% nationwide

Apr 2025

AI/ML Sprint – Project-Based Learning Certificate — byteXL TechEd Pvt. Ltd.

Oct 2025
