EDUCATION

Parul University

Bachelor of Technology in Computer Science Engineering (AI & ML) - CGPA: 8.6/10.0

Aug 2023 – May 2027

Vadodara, Gujarat

EXPERIENCE

Software Development Engineer - SDE Intern

Mavens Intelligence India Pvt Ltd

Jun 2026 – Present

Vadodara, Gujarat, India

- Contributed to the development and enhancement of the customer-facing **Public Menu module** for **Mav-Restro**, a POS platform, using React, TypeScript, Node.js, Express.js, Prisma, and PostgreSQL.
- Developed end-to-end customer ordering workflows including **QR-based menu access**, product discovery, search and category filtering, cart management, customer authentication, **OTP verification**, and order placement.
- Integrated frontend workflows with **REST APIs, Firebase Authentication, JWT**, Prisma, and PostgreSQL for customer authentication, session handling, customer data, and order persistence.
- Debugged and resolved issues across frontend state management, API integration, authentication, database persistence, and order workflows, while enhancing existing functionality within the shared POS codebase.

Back End Developer Trainee

byteXL TechEd Pvt. Ltd.

Aug 2025 – Oct 2025

Remote, India [Transcript]

- Contributed to **Growmart**, an online grocery marketplace, as part of a 3-member Agile team, participating in application development, system architecture, and feature implementation across multiple sprints.
- Worked with React, TypeScript, Node.js, Express.js, REST APIs, and SQL to develop application features and integrate frontend workflows with backend services.
- Used **Git, GitHub, Docker, and Postman** for collaborative development, API testing, debugging, and maintaining application workflows.

TECHNICAL PROJECTS

Turing Body – AI-Based MS Lesion Detection System

Python, TensorFlow, FastAPI, React, Docker

[Live] [GitHub]

2025 – 2026

- Built an end-to-end MRI lesion segmentation system using a **U-Net CNN** with **TensorFlow**, integrating model inference with backend REST APIs and a web-based dashboard.
- Developed application workflows for image analysis, segmentation visualization, severity classification, and automated **PDF report generation**, integrating the ML pipeline with the application layer.
- Containerized application components using **Docker** and implemented authentication and API communication between the frontend and backend services.

Examiner – AI-Powered Mock Interview Platform

React, Spring Boot, Python, Groq API, Whisper

[Live] [GitHub]

2025 – 2026

- Developed an AI-powered mock interview platform that processes **resume PDFs**, generates domain-specific interview questions using **Groq LLM API**, and supports adaptive interview workflows.
- Integrated **Whisper** speech-to-text, text-to-speech, and 3D avatar interactions using React and Three.js-based technologies for voice and text interview experiences.
- Implemented automated evaluation of **technical knowledge, communication, and confidence**, generating personalized performance reports for interview improvement.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Java, SQL, CSS, HTML
Frameworks & Libraries	React, Node.js, Express.js, Next.js, Tailwind CSS,
Databases & Backend	PostgreSQL, Prisma ORM, REST APIs, JWT, Firebase Authentication
Tools & Technologies	Git, GitHub, Docker, Postman, Vite, Stitch, Figma, Claude, Chrome Dev-Tool, Plane[Project Management]
Core Competencies	Full-Stack Development, API Integration, Authentication, State Management, Database Management, Debugging, Testing, Hosting, Logging & Monitoring, Maintaining, Agile/Scrum

HONORS & AWARDS

Securing a First Job as SDE Engineer - Training and Placement Cell	2026
Computer Networks and Internet Protocol – NPTEL - Elite + Top 5%	2025
AI/ML Sprint – Project-Based Learning - byteXL TechEd Pvt. Ltd.	2025
Microsoft Certified – Azure Data Fundamentals (DP-900) - Global Level Certification	2024
